

LE DIEM QUYNH NHU

Data Analyst | Data Engineer | AI Engineer

Ho Chi Minh City | +84 862 041 580 | lediemquynhnhu.work@gmail.com | <https://github.com/lediemquynhnhu875>

CAREER OBJECTIVE

Third-year Data Science student at the University of Information Technology with a strong foundation in data analysis and machine learning. Experienced in working with real-world datasets through academic projects. Seeking a Data Science Internship to apply technical skills and contribute to data-driven solutions.

EDUCATION

University of Information Technology UIT, VNU-HCM

Ho Chi Minh City, Vietnam

Bachelor of Science - Major: Data Science

09/2023 - 09/2027 (Expected)

- GPA: 8.49/10

07/2026

SKILLS

Languages: Vietnamese (First Language), English (IELTS: 7.5) & Chinese (HSK 3 - in progress)

Relevant Coursework (Points): Linear Algebra (9.9), Object-Oriented Programming (9.4), Probability & Statistics (10), Natural Language Processing (9.1), Google Advanced Data Analytics (Google Certificate)

Technical Skills

- Programming Languages: Python, SQL, C++.
- Data Science & Analytics: TensorFlow, Scikit-learn, Pytorch, Statistical Analysis, Predictive Analysis.
- Data Visualization: Tableau, Power BI, Matplotlib, Seaborn, Plotly.
- Tools: Git, Jupyter Notebook, VSCode, Microsoft Excel, Kaggle, Google Colab, Google Cloud.
- Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration, Result-oriented Leadership.

ACHIEVEMENTS

Won “The Most Favorite Project” Award at Creative Startup Ideas Competition 2023 at UIT-VNU

12/2023

- Project: SERVI – FREELANCER & CLIENT CONNECTING PLATFORM
- Proposed a platform connecting freelancers and clients to streamline job matching, focused on improving accessibility and efficiency in freelance hiring.

Won Third Prize at ISE Spark of Ideas Fall 2024 Competition at UIT-VNU

11/2024

- Project: SMART SOS – EMERGENCY SERVICE APPLICATION
- Developed a smart emergency support system connecting users with nearby services, integrated real-time location and response features to enhance emergency handling.

Leadership & Activities

- Executive Committee Member of the Youth Union (University level); Deputy Secretary of Faculty Youth Union
- Achieved “Five-Good Student” title at Faculty, University, and VNU-HCM levels in 2024, 2025
- Team Leader/Deputy Leader in “Mua he Xanh” and “Xuan Tinh nguyen” campaigns (2025–2026); received many certificates of merit for volunteer contributions
- Head of Communications & Logistics – UIT Data Science Challenge 2025

ACADEMIC PROJECT

Vietnamese Multimodal Sarcasm Detection on Social Media

03/2026 - 06/2026

- Constructed a Vietnamese multimodal sarcasm dataset comprising **7,355** social media posts, collected from **Threads (60.58%)** and **Facebook (39.42%)**, with **fine-grained annotations** for sarcasm and non-sarcastic content across **text, images, and emojis**.
- Designed a two-stage LLM-assisted annotation pipeline and annotation guidelines, achieving **82%** and **76% human agreement rates** across two different LLMs, while incorporating conflict-checking mechanisms to improve labeling consistency and data quality.
- Evaluated **10** machine learning and deep learning models across unimodal and multimodal settings for Vietnamese sarcasm detection.

Multi-hop QA with Graph-based Methods for Vietnamese Medical Domain

10/2025 - 12/2025

- Developed a Vietnamese multi-hop Question Answering system by integrating **Knowledge Graph Embeddings (KGE)** with **ViT5 Transformer**, enabling multi-step reasoning for complex medical queries.
- Constructed an end-to-end pipeline including entity recognition, relation extraction, and knowledge graph construction using the **Vietnamese-Healthcare dataset (173,201 records)** to support knowledge-driven question answering.
- Achieved substantial performance gains over the Transformer baseline, improving **BLEU from 9.88 to 40.97**, **ROUGE-L from 14.36 to 43.82**, and **BERTScore from 80.59 to 89.47** through KG-enhanced reasoning and answer generation.

Predicting Popularity of Vietnamese News Articles

02/2025 - 05/2025

- Built a **5,310-article Vietnamese news popularity dataset** from **9 VnExpress categories** (Dec 2024–Apr 2025), including content, metadata, and engagement features.
- Benchmarked Ridge Regression, Random Forest, and XGBoost, achieving up to **$R^2 = 0.4447$** on the test set.
- Analyzed the impact of limited engagement features on model performance.

WORK EXPERIENCE

TIENG ANH THAY LUAN - English Tutor

09/2023 - Present

- Delivered English lessons for students aged 15–19, focusing on school curriculum, TOEIC, and IELTS preparation.
- Supported students’ learning progress through communication, assessments, and proficiency evaluation.
