CAREER OBJECTIVE

Third-year Data Science student at the University of Information Technology with a strong foundation in data analysis and machine learning. Experienced in working with real-world datasets through academic projects. Seeking a Data Science Internship to apply technical skills and contribute to data-driven solutions.

EDUCATION

University of Information Technology, VNU-HCM

Ho Chi Minh City, Vietnam

Bachelor of Science - Major: Data Science

09/2023 - 09/2027 (Expected)

- GPA: 8.38/10

04/2026

SKILLS

Languages: Vietnamese (First Language), English (IELTS: 7.5) & Chinese (HSK 3 - in progress)

Relevant Coursework (Points): Linear Algebra (9.9), Object-Oriented Programming (9.4), Probability & Statistics (10), Natural Language Processing (9.1)

Technical Skills

- Programming Languages: Python, SQL, C++.
- Data Science & Analytics: TensorFlow, Scikit-learn, Pytorch, Statistical Analysis, Predictive Analysis.
- Data Visualization: Tableau, Power BI, Matplotlib, Seaborn, Plotly.
- Tools: Git, Jupyter Notebook, VSCode, Microsoft Excel, Kaggle, Google Colab.
- Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration, Result-oriented Leadership.

ACHIEVEMENTS

Won “The Most Favorite Project” Award at Creative Startup Ideas Competition 2023 at UIT-VNU

12/2023

- Project: SERVI – FREELANCER & CLIENT CONNECTING PLATFORM
- Proposed a platform connecting freelancers and clients to streamline job matching, focused on improving accessibility and efficiency in freelance hiring.

Won Third Prize at ISE Spark of Ideas Fall 2024 Competition at UIT-VNU

11/2024

- Project: SMART SOS – EMERGENCY SERVICE APPLICATION
- Developed a smart emergency support system connecting users with nearby services, integrated real-time location and response features to enhance emergency handling.

Leadership & Activities

- Executive Committee Member of the Youth Union (University level); Deputy Secretary of Faculty Youth Union
- Achieved “Five-Good Student” title at Faculty, University, and VNU-HCM levels in 2024, 2025
- Team Leader/Deputy Leader in “Mua he Xanh” and “Xuan Tinh nguyen” campaigns (2025–2026); received many certificates of merit for volunteer contributions
- Head of Communications & Logistics – UIT Data Science Challenge 2025

ACADEMIC PROJECT

Multimodal Sarcasm Analysis - Data Annotation Framework

03/2026 - present

- Designed a labeling framework for multimodal sarcasm detection by analyzing text, images, and emojis.
- Built taxonomy and decision rules to classify sarcasm, irony, satire, and non-sarcastic cases.
- Developed annotation guidelines and conflict-checking methods to ensure consistency and data quality.

Multi-hop QA with Graph-based Methods for Vietnamese Medical Domain

10/2025 - 12/2025

- Developed a multi-hop Question Answering system combining **Knowledge Graph** and **Transformer (ViT5)** for the Vietnamese medical domain.
- Built a pipeline including entity recognition, relation extraction, and knowledge graph construction for **multi-step reasoning**.
- Integrated KG embeddings with a Seq2Seq model to improve answer accuracy and reduce hallucination in complex queries.

Predicting Popularity of Vietnamese News Articles

02/2025 - 05/2025

- Built a regression model to predict article popularity using features from VnExpress (title, tags, metadata, engagement).
- Collected ~5300 samples via web scraping and performed data preprocessing and feature engineering.
- Applied Ridge Regression, Random Forest, and XGBoost models, evaluated using RMSE and R².

WORK EXPERIENCE

TIENG ANH THAY LUAN - English Tutor

09/2023 - Present

- Delivered English lessons for students aged 15–19, focusing on school curriculum, TOEIC, and IELTS preparation.
- Communicated with students to support learning progress and strengthen communication skills.
- Designed and conducted assessments to evaluate proficiency and monitor student improvement.
